Dedicated security and cloud specialist with hands-on experience in Python, PowerShell, Linux, SQL, Splunk, and AWS/Azure. Committed to enhancing digital security by proactively addressing cybersecurity risks, fortifying defenses, and safeguarding networks. Certified in CompTIA A+, Network+, Security+, and Google Cybersecurity Professional. I am eager to contribute expertise and learn in a dynamic environment.

EXPERIENCE

Azure SEIM (Home Lab)   *August 2023 – August 2023*
- Utilized custom PowerShell scripts to extract metadata from Windows Event Viewer and forwarded it to third-party API for geolocation analysis.
- Configured Log Analytics Workspace in Azure, ingesting custom logs with geographic information.
- Configured Azure Sentinel workbook to display global attack data (RDP brute force) on a world map, detailing attacks' physical location and magnitude.

Active Directory Administration (Home Lab)   *August 2023 – August 2023*
- Automated provision, maintenance, and deprovisioning of user accounts using PowerShell.
- Set up Remote Access Server (RAS) features to support NAT/PAT and implemented and maintained Windows DNS and DHCP services.
- Configured Windows File Servers, implementing quotas and NTFS permissions.

GitHub Contributions (Home Labs)   *August 2023 – Present*
- Documented mock audits, network capturing, analysis of different attacks, and various IT projects involving Linux, SQL, and Python.

W. Harris, G.S.C, Inc. Government Contractor   *August 2022 – October 2023*
- Conducted quality assurance audits and maintained accurate records.
- Ensured regulatory compliance with federal and state requirements.

EDUCATION

Western Governors University   *October 2023 – December 2024 (In Progress)*
- B.S. Cybersecurity and Information Assurance

Northern Virginia Community College   *August 2021 – June 2023*
- A.S. Information Technology
- Achieved Dean's list throughout academic years
- Actively participated in various IT events hosted by the community

CERTIFICATIONS & SKILLS
- **Certifications**: CompTIA A+, Network+, Security+, and Google Cybersecurity Professional. AWS Certified Solutions Architect (in progress)
- **Skills**: AWS, Azure, Python, SQL, JavaScript, HTML/CSS, Network Security, SIEMs, IPS/IDS, Firewalls, VPN, Wireshark/tcpdump, Linux/Windows/MacOS, Security Frameworks/Controls/Design Principles.
